Re: Bid Call for the Demolition and Replacement of a Vehicle Maintenance Building at the Parks and Recreation Facility Located on Business Loop 70 West

EXECUTIVE SUMMARY:

Staff has prepared for Council consideration an ordinance authorizing a bid call through the Purchasing division, and appropriating funds, for the demolition and replacement of a vehicle maintenance building at the Parks and Recreation facility located at 1615 Business Loop 70 West. A public hearing for this project is being held on March 4, 2013.

DISCUSSION:

At the September 4, 2012 Council meeting, a professional architectural services agreement with Peckham and Wright Architects, Inc was approved for the design of a new vehicle maintenance building at the Parks and Recreation facility. The existing structure, to be demolished, had a number of structural and building code issues, and due to the age and previous alterations of the building, it was determined that the structure should be replaced as the most cost effective alternative.

Peckham and Wright is finalizing plans which includes working with Building and Site Development staff for City permit review and approval, and with the Purchasing division to provide a final bid package. Staff would prefer to keep the existing building in operation until the new building is complete and operational. Construction is proposed to begin at the end of April, and should take 5 - 6 months to be fully operational, with demolition of the existing building in September or October of this year. Following demolition, there will be about 30 days of final parking lot construction south of the new building, fence installation and final cleanup work.

FISCAL IMPACT:

The project is estimated to cost \$950,000.00. Staff previously appropriated \$100,000 per Ordinance 21410 passed on September 4, 2012. With this ordinance, an additional \$850,000 is being appropriated from the Fleet Operations Retained Earnings account.
