

Each week, we will study one of seven principles and activities will focus on that principle. Students will develop their own Mini-Society® which will teach the concepts of economics. Participants will create their own country, flag, currency and produce products in their society. Weekly swimming days, field trips, arts & crafts, as well as a special project that the kids will do to earn money for an end of the summer activity are planned. A lunch & snack will be provided everyday.
