Channel catfish	4	none
Crappie	30	none
All other fish combined	20	none

Boats prohibited on South Farm R-1 Lake  
Boats without motors permitted on Twin Lake

## Community Assistance Program

The Community Assistance Program, sponsored by the Missouri Conservation Department, provides fisheries management and assistance to local communities for developing and upgrading recreational facilities. In return, local communities maintain the area and facilities, and open their lakes to the public. This program provides fishing and improved facilities at lakes close to home. Everyone benefits.

## Columbia Area CAP Lakes

### About These Areas

Close to home fishing and other outdoor recreational opportunities are plentiful in the Columbia area. Within 20 miles of Columbia, six lakes owned by the City of Columbia, A. Perry Philips (42 acres), Antimi (2 acres), Cosmo-Bethel (6 acres), Lake of the Woods (3 acres), Twin (18 acres), and Stephens (12 acres) lakes, and six lakes owned by the University of Missouri, Ashland (12 acres), Dairy Lake #1 (16 acres), Dairy Lake #3 (5 acres), McCredie (12 acres), South Farm R-1 (9 acres), and Turkey Farm (12 acres) lakes are open to the public for fishing. In 1992 and 1994, the City and University enrolled these lakes in the Community Assistance Program (CAP) sponsored by the Missouri Conservation Department. This program has made it possible for the fish populations in these lakes to be managed by the Conservation Department and for new parking lots, boat ramps, a disabled-accessible fishing dock and privies to be provided.

Each lake offers a different setting for a fishing experience. Philips, Twin, Cosmo-Bethel, Antimi and Stephens lakes are located in City parks. Lake of the Woods is located at a golf course and Ashland, South Farm R-1, McCredie, Turkey Farm, Dairy Lake #1, and Dairy Lake #3 are located in rural areas. All lakes have largemouth bass and bluegill. In addition, some lakes have green sunfish, crappie, channel catfish, bullheads, grass carp or common carp. **Things to do** at these lakes include fishing, frogging, hiking, picnicking, bird watching, nature study and photography.

### General Rules and Regulations

- \* All areas are open for day use only. Camping and swimming are prohibited.
- \* Hunting is prohibited.
- \* Only pole and line fishing is permitted (no more than 3 poles per person).

### McCredie Lake
