Office of Mayor and Council
Darwin Hindman, Mayor

July 6, 2009

Dear Driver:

The Columbia City Council adopted Ordinance 19165 to establish a red light camera program with the sincerest hope that it will make each driver in our community take the responsibility of driving more seriously.

I and other members of the Columbia City Council worry about traffic safety in our community. We have noticed an increasing number of vehicles that do not stop for red lights. This is a dangerous practice, which red light cameras are designed to stop.

As a driver, you have the responsibility to focus your entire energy on driving when you are behind the wheel. All drivers depend on each other taking this responsibility seriously.

In August 2003 my family was directly impacted when a van ran a red light and collided with another car, causing that car to slide into my daughter on her bicycle. My daughter was injured and had to be transported to the hospital. Fortunately the injuries were not more serious.

Safe driving is important; your life and the lives of your family, friends and neighbors depend on it.

Sincerely,

A handwritten signature in black ink that reads "Darwin Hindman".

Darwin Hindman
Mayor
