Re: 2010 Specifications and Standards Update
Revised Site Plan Checklist
Best Management Practice (BMP) Inspection and Maintenance Forms

To Whom It May Concern:

The City of Columbia has completed a comprehensive update to the City's Street, Storm Sewer, and Sanitary Sewer Specifications and Standards last updated in 2001. The Public Works Department requests your assistance in reviewing this document. Portions of nearly every section of the previous documents and several details have been modified. Additionally, the followings sections or details have been added or deleted:

Section 203 - Seeding and Mulching
Section 228 - Superior Performing Pavement (Superpave) Materials
Section 229 - Superior Performing Pavement (Superpave)
Section 239 - Repair of Concrete Pavement
Section 240 - Cold Milling
Section 241 - Maintenance of Traffic
Section 242 - Pavement Markings
Section 265 - Testing and Inspections
Section 270 - Erosion and Sediment Control General Requirements
Section 271 - Chemical Waste and Control
Section 272 - Erosion Controls
Section 273 - Sediment Controls and Diversions

Detail 130.01 - Cul-de-sac Layout
Detail 205.01 - Cul-de-sac Joint Detail
Detail 410.06 - Sidewalk Driveway Detail
Detail 430.02 - Sidewalk Ramp, Type B (DELETED)
Detail 430.03 - Sidewalk Ramp Plan View
Detail 432.02 - Sidewalk Ramp, Type B (DELETED)
Detail 432.03 - Sidewalk Ramp Plan View
Detail 440.02 - Panel and Curb Replacement
Detail 510.03 - Catch Basin Detail (DELETED)
Detail 525.01B - Toewall and End Section for HDPE and CMP
Detail 530.04 - Overflow Swale at Cul-de-sac
Detail 540.01 - Pipe Embedment (In the Right of Way)
Detail 540.02 - Pipe Embedment (Out of the Right of Way)
Detail 1000.16 - Trench Grate

CITY OF COLUMBIA, MISSOURI

PUBLIC WORKS DEPARTMENT

This update was completed by soliciting input from Public Works staff and comparing the existing specifications and standards to those currently in use by the Missouri Department of Transportation (MoDOT) and the Kansas City Metro Chapter of the American Public Works Association (KC-APWA).

The City has also updated their site plan checklist and created Best Management Practice (BMP) Inspection and Maintenance Forms. All of these draft documents will be available for review in the following location on the City's website:
<http://www.gocolumbiamo.com/PublicWorks/Engineering/index.php>.

Comments regarding these changes should be submitted in writing to Shane Creech of my staff by April 1, 2010. Upon completion of the review period the comments will be compiled and reviewed by staff for consideration. Following staff review another letter will be sent out detailing the changes made and setting an implementation date.

Sincerely,

A handwritten signature in blue ink that reads "John D. Glascock".

John D. Glascock, P.E.
Public Works Director
