Sixth Street Alignment - Open Cut

Sixth Street Alignment - Trenchless

For construction that disturbs an existing covered (via paving material) brick street, the brick that is removed will be cleaned and stored for replacement as part of a future project.

Open cut excavation limits

Access to businesses & parking lots to be considered

Trenchless construction greatly reduces surface impacts but pipe installation cost increases 5 to 10 times as much as open cut

Access to businesses & parking lots to be considered

Open cut for service lateral re-connection
